FY 2027 PROPOSED BUDGET MESSAGE

City Manager's Budget Message
City of El Paso, Texas

Honorable Mayor, Members of City Council, and Residents of the City of El Paso:

It is my privilege to present the City of El Paso's Fiscal Year (FY) 2027 Proposed Budget. This budget reflects our unwavering commitment to providing exceptional public services, preserving the City's long-term financial health, and investing strategically in the priorities that matter most to our residents. Developed during a period of continued economic uncertainty and significant fiscal challenges, the FY 2027 Proposed Budget demonstrates that disciplined financial management and thoughtful planning can position our community for continued success while maintaining the flexibility necessary to respond to future opportunities and challenges.

The FY 2027 Proposed Budget totals approximately **$1.407 billion** across all operating and capital funds, including a **General Fund budget of approximately $655.3 million**. While the General Fund reflects a 4.7 percent increase over the FY 2026 Adopted Budget, the overall City budget increases by only 1.8 percent, underscoring our continued emphasis on responsible growth, operational efficiency, and long-term fiscal sustainability.

This year's budget is the product of months of collaboration among City Council, City executive leadership, department directors, City employees, community stakeholders, and the Office of Management and Budget. It reflects the City's shared commitment to balancing today's operational needs while preparing for tomorrow's opportunities. Throughout the budget development process, every expenditure was evaluated through the lens of strategic value, operational necessity, and long-term sustainability.

The FY 2027 budget was developed amid several significant financial pressures. The City continues to experience increasing costs associated with workforce (in particular uniform workforce), healthcare, contractual services, utilities, fleet replacement, technology infrastructure, and voter-approved debt obligations. At the same time, recent State actions expanding property tax exemptions have significantly reduced the City's taxable value and further limiting revenue growth while increasing demands for municipal services. These competing pressures required difficult decisions and reinforced the importance of maintaining a disciplined approach to budgeting that protects essential services without compromising our long-term financial position.

Despite these challenges, this budget maintains our commitment to delivering high-quality public services while advancing the City's recently adopted Strategic Plan. The FY 2027 Proposed Budget aligns financial resources with five strategic pillars that define our vision for El Paso's future:

- **Good Governance** – Leadership that is responsive and reliable.
- **Public Safety** – Protection and visibility as a baseline responsibility.
- **Infrastructure** – People, places, and daily life that feel connected.
- **Economic Mobility** – Opportunity and prosperity that reflect El Paso.
- **Quality of Life** – Vibrant neighborhoods and amenities that enhance the daily lives of residents.

For the first time, the City's budget fully implements **Program-Based Budgeting** across every department. This transformational initiative strengthens the connection between financial resources, operational objectives, and measurable outcomes. Rather than focusing solely on organizational units, the budget now communicates how City programs deliver value to residents and advance strategic priorities. This improvement represents an important milestone in the City's ongoing commitment to transparency, accountability, and performance management.
The FY 2027 budget process also introduced several additional improvements that enhance both governance and public engagement. These include the implementation of a two-year financial outlook, expanded budget workshops held six weeks earlier than in previous years, revised procedures for Council Budget

Adjustments, and broader community engagement through public meetings and the introduction of the City's Budget Simulation Tool. Together, these enhancements provide City Council and residents with earlier, more meaningful opportunities to participate in shaping the City's financial priorities.

Consistent with the City's long-standing financial policies, the FY 2027 Proposed Budget maintains a structurally balanced financial plan in which recurring revenues support recurring expenditures. Importantly, the proposed budget does **not** rely on unrestricted General Fund reserves or other one-time revenues to fund ongoing operations. Instead, departments undertook comprehensive reviews of expenditures, implemented operational efficiencies, and reduced or defunded 75 percent of vacant positions, generating an estimated $26.2 million in recurring savings while minimizing impacts to frontline services.

Public safety remains the City's highest investment priority. The proposed budget continues to fund police and fire academies, utilizes implementation of Community-Oriented Policing Services (COPS) and Staffing for Adequate Fire and Emergency Response (SAFER) grant programs, maintains investments in Neighborhood Traffic Management and Vision Zero initiatives, and provides public safety compensation adjustments consistent with collective bargaining agreements. These investments reinforce our commitment to protecting residents while ensuring the City remains competitive in recruiting and retaining highly qualified public safety professionals.

Infrastructure investment likewise remains a central component of the City's financial strategy. The FY 2027 Proposed Budget maintains annual Pay-Go funding supporting streets, parks, facilities, fleet replacement, and equipment. These recurring investments allow the City to preserve existing infrastructure while reducing reliance on debt for routine capital needs.

The budget also reflects the City's continued investment in its workforce. Employees remain our most valuable resource, representing approximately 71% of General Fund expenditures. The proposed budget provides a $0.50 increase in minimum wage (**from $15.75 to $16.25**), or at least 2.5% compensation increases for civilian employees, maintains no increase to employee healthcare contributions for the

ninth consecutive year, and continues investments that strengthen recruitment, retention, and organizational stability. These investments recognize that exceptional public service begins with attracting and retaining exceptional employees.

As we look toward the future, we recognize that significant challenges remain. Continued uncertainty surrounding inflation, evolving State legislation, federal funding reductions, infrastructure needs, and workforce pressures will require ongoing discipline and innovation. Nevertheless, the City enters FY 2027 from a position of financial strength, supported by healthy reserves, strong bond ratings, conservative forecasting practices, and a steadfast commitment to responsible stewardship of taxpayer resources.

The FY 2027 Proposed Budget is more than a financial plan—it is a strategic investment in El Paso's future. It reflects our shared values, supports the priorities established by City Council, and positions the City to continue delivering outstanding services while maintaining the financial flexibility necessary to adapt to changing economic conditions.

I would like to express my sincere appreciation to the Mayor and City Council for their leadership and guidance throughout this process. I also extend my gratitude to the Chief Financial Officer, Office of Management and Budget, department directors, City employees, and the many residents who participated in budget workshops and community meetings. Their collaboration, professionalism, and dedication made this budget possible.

Together, we continue building an organization that is financially resilient, operationally excellent, and focused on improving the quality of life for everyone who calls El Paso home.

Respectfully submitted,

Dionne Mack

Budget Development Process & Economic Environment

Budget Development Process - A Strategic, Transparent, and Collaborative Approach

The FY 2027 Proposed Budget reflects the City of El Paso's commitment to sound financial management, transparency, and strategic decision-making. The budget was developed through a collaborative process involving the Mayor and City Council, City leadership, Office of Management and Budget, department leadership, employees, and the community. Throughout the budget process, every expenditure was evaluated against organizational priorities, service delivery expectations, and long-term financial sustainability.

The FY 2027 budget was developed using a disciplined, performance-oriented approach designed to ensure that limited financial resources are invested where they create the greatest value for residents. Rather than relying solely on historical spending patterns, departments were required to evaluate existing programs, assess operational needs, identify efficiencies, and prioritize investments that directly support the City's Strategic Plan.

The City's budget process extends well beyond balancing revenues and expenditures. It serves as the organization's primary policy document, operational plan, financial plan, and communication tool, translating City Council priorities into actionable programs and measurable outcomes. The FY 2027 Proposed Budget continues this philosophy by integrating strategic planning, financial forecasting, performance management, and community engagement into a unified decision-making framework.

Enhanced Budget Development Process

Recognizing the importance of continuous improvement, the City implemented several significant enhancements during the FY 2027 budget development process. These improvements were designed to strengthen governance, improve transparency, expand public participation, and better align financial resources with strategic priorities.

1. **Full Implementation of Program-Based Budgeting**

FY 2027 marks the City's first budget developed using **Program-Based Budgeting** across every department. This initiative represents one of the most significant improvements to the City's financial management practices in recent years.

Unlike traditional line-item budgeting, Program-Based Budgeting organizes financial information around the programs and services delivered to residents. This approach enables decision-makers to better understand: ***1) what services are being provided, 2) why those services are important, 3) how resources are allocated, 4) what outcomes are expected; and 5) how performance will be measured***.

Program-Based Budgeting strengthens accountability by connecting expenditures to measurable community outcomes rather than simply organizational structure. It also enhances transparency by helping residents understand how their tax dollars support specific programs that improve quality of life throughout the community.

The implementation of Program-Based Budgeting also establishes a stronger foundation for future performance measurement, continuous improvement initiatives, and data-driven decision making.

2. **Introduction of a Two-Year Financial Outlook**

For the first time, the FY 2027 budget includes a formal **two-year financial outlook** designed to improve decision making and long-range financial perspective.

Historically, municipal budgets have focused primarily on annual appropriations. While annual budgeting remains essential, many financial pressures—including inflation, workforce costs, debt service, healthcare, technology investments, and state legislative actions—develop over multiple years.

The two-year outlook allows City leadership to: ***1) evaluate structural budget trends, 2) identify emerging fiscal challenges earlier, 3) assess long-term affordability of policy decisions, 4) improve strategic planning; and 5) reduce reliance on reactive budget adjustments.***

This enhancement supports one of the City's fundamental financial objectives: **maintaining structural balance while preparing for future uncertainties**.

3. **Earlier City Council Engagement**

The FY 2027 budget process significantly expanded opportunities for City Council participation.

Budget workshops were moved approximately **six weeks earlier** than in previous years, allowing Council Members to provide strategic direction before major budget decisions were finalized. Multiple workshop sessions provided opportunities to discuss: ***1) departmental priorities, 2) financial assumptions, 3) service level expectations, 4) revenue projections, 5) expenditure forecasts; and 6) emerging policy issues.***

This earlier engagement strengthened collaboration between City Council and the administration while improving alignment between policy priorities and resource allocation.

4. **Enhanced Budget Adjustments Process**

The FY 2027 process also introduced a **revised Council Budget Adjustment** process. The updated process provides greater clarity regarding: ***1) requested policy changes, 2) financial impacts, 3) funding sources, 4) operational implications; and 5) long-term sustainability.***

These improvements support more informed policy decisions while increasing transparency throughout budget deliberations.

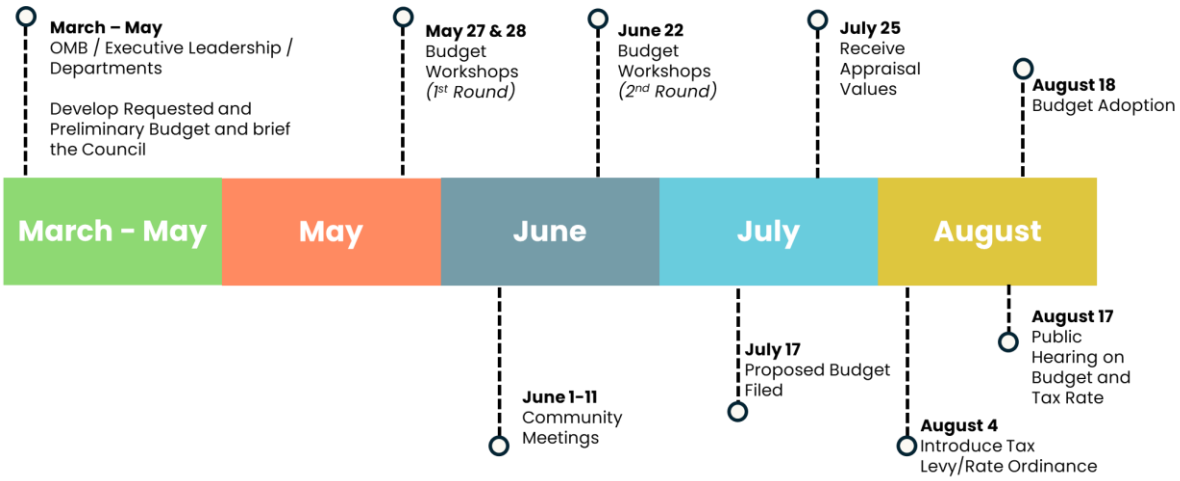

5. **Community Engagement**

Public participation remains a cornerstone of the City's budget development process. During FY 2027, the City **expanded community engagement** through a series of public meetings held throughout El Paso. These meetings provided residents with opportunities to: ***1) learn about the City's financial condition, 2) understand budget priorities, 3) ask questions, 4) provide feedback; and 5) participate in discussions regarding future investments.***

To further strengthen public understanding, the City introduced its new **Budget Simulation Tool**, allowing residents to experience the difficult tradeoffs involved in balancing a municipal budget. This interactive tool promotes financial literacy while encouraging meaningful dialogue regarding community priorities.

FY 2027 Budget Timeline

The FY 2027 budget process followed a structured schedule designed to maximize transparency and public participation. This expanded timeline provided greater opportunities for discussion, public input, and informed decision-making before final adoption of the FY 2027 budget.

Economic Environment

National Economic Conditions

The FY 2027 Proposed Budget was developed during a period of continued national economic uncertainty. Although inflation has moderated from historic highs experienced in recent years, prices remain elevated across many sectors affecting municipal operations.

Local governments continue to experience higher costs associated with: construction materials, fuel, fleet replacement, technology, utilities, insurance, healthcare, professional services and labor. These inflationary pressures have significantly increased the cost of delivering municipal services while simultaneously limiting purchasing power. In addition, higher interest rates continue affecting capital financing, debt issuance, and long-term infrastructure planning for local governments across the nation.

Regional and Local Economy

Despite national economic uncertainty, the El Paso economy continues to demonstrate resilience.

The region continues benefiting from its strategic location as one of the nation's busiest international trade corridors. Growth in logistics, manufacturing, healthcare, defense, retail trade, tourism, and cross-border commerce continues supporting local employment and consumer spending.

Sales tax revenues remain one of the City's strongest economically sensitive revenue sources and continue outperforming historical expectations. Through February FY 2026, year-to-date collections remained approximately **9 percent above** the prior year. Based on current trends, FY 2027 sales tax revenue is projected to increase approximately **4.8 percent** over FY 2026 projected year-end collections.

Although economic activity remains healthy, growth has moderated compared to the rapid expansion experienced following the pandemic recovery. Accordingly, the City continues utilizing conservative revenue forecasting assumptions to reduce financial risk and preserve structural balance.

Property Values and Tax Base

Property values within El Paso continue to increase; however, growth in taxable value no longer translates proportionally into municipal revenue.

Unlike previous years, the largest challenges affecting the budget are largely outside the City's direct control.

Recent State legislation significantly expanded property tax exemptions available to homeowners, businesses, seniors, disabled residents, and disabled veterans. While these exemptions reduce tax burdens for eligible taxpayers, they also substantially reduce taxable value available to support municipal services, such as police, fire, streets, parks, libraries, and other essential municipal services.

During the November 2025 election, Texas voters approved Proposition 9, increasing the Business Personal Property exemption from **$2,500 to $125,000** effective January 1, 2026.

For FY 2027, the City estimates:

- Approximately **$11 million** in additional annual property tax revenue loss attributable to State actions;
- Approximately **$56.5 million** in total property tax relief provided through exemptions; and

In addition, if we include voter-approved debt service this will result in approximately **$5.8 million** in reduced annual revenue capacity—equivalent to approximately **2.8 cents** on the City's property tax rate.

		Tax Rate Impact	Annual Impact on $233,549 Home	
State	Business Personal Property Exemption (New)	1.26 cents	$29.43	**$44.14**
	Disabled Veterans Exemption	0.63 cents	$14.71	
Local	Voter - Approved Debt Service (no issuance last 3 years)	0.88 cents	$20.55	
	Total Impact	**2.77 cents**	**$64.69**	

For every $100,000 of taxable value, the tax rate impact equals $27.70 per year

Proposed Property Tax Rate

FY2027 Proposed Property tax rate is 0.783 and is 2.3 cents higher than FY2026.

Inflation and Operating Costs

Inflation continues affecting nearly every area of municipal operations. Major cost pressures include: employee compensation, health insurance, pension obligations, utilities, fleet maintenance, fuel, technology contracts, facility maintenance, construction materials and contractual services.

The City has incorporated these pressures into its financial planning while continuing to emphasize efficiency, innovation, and responsible stewardship of public resources.

Federal Funding Environment

The City continues transitioning away from temporary federal assistance provided through the **American Rescue Plan Act (ARPA)**.

While ARPA resources allowed the City to address extraordinary pandemic-related needs and invest in critical programs, those revenues were intentionally treated as one-time resources. As funding expires, ongoing operational costs must either transition to recurring local revenues or be adjusted through expenditure reductions and efficiency initiatives.

This transition represents one of the most significant fiscal challenges addressed in the FY 2027 Proposed Budget and reinforces the City's commitment to maintaining structural balance without creating long-term reliance on temporary funding sources.

Positioning El Paso for Long-Term Success

Despite economic uncertainty, the City enters FY 2027 from a position of financial strength. Conservative budgeting practices, healthy reserve levels, prudent debt management, and strong financial policies have enabled El Paso to navigate changing economic conditions while continuing to invest in the services and infrastructure residents expect.

Looking ahead, the City will continue monitoring economic indicators, evaluating legislative changes, and refining long-term financial forecasts to ensure that decisions made today preserve flexibility for tomorrow. By combining disciplined fiscal management with strategic investment, the FY 2027 Proposed Budget positions El Paso to remain resilient, responsive, and financially sustainable in an increasingly complex economic environment.

General Fund Revenue and Expenditure Composition

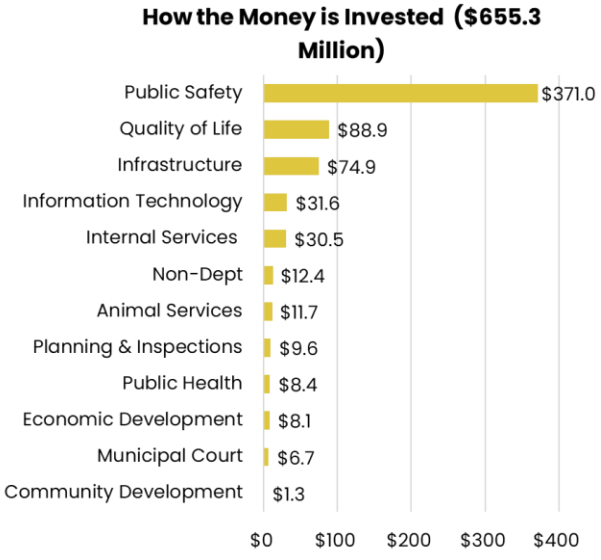

Financial Overview

The FY 2027 General Fund Proposed Budget reflects the City of El Paso's long-standing commitment to fiscal discipline, conservative financial management, and responsible stewardship of public resources. The FY 2027 Proposed Budget was developed around one guiding principle: **Make decisions today that strengthen the City's financial position tomorrow.**

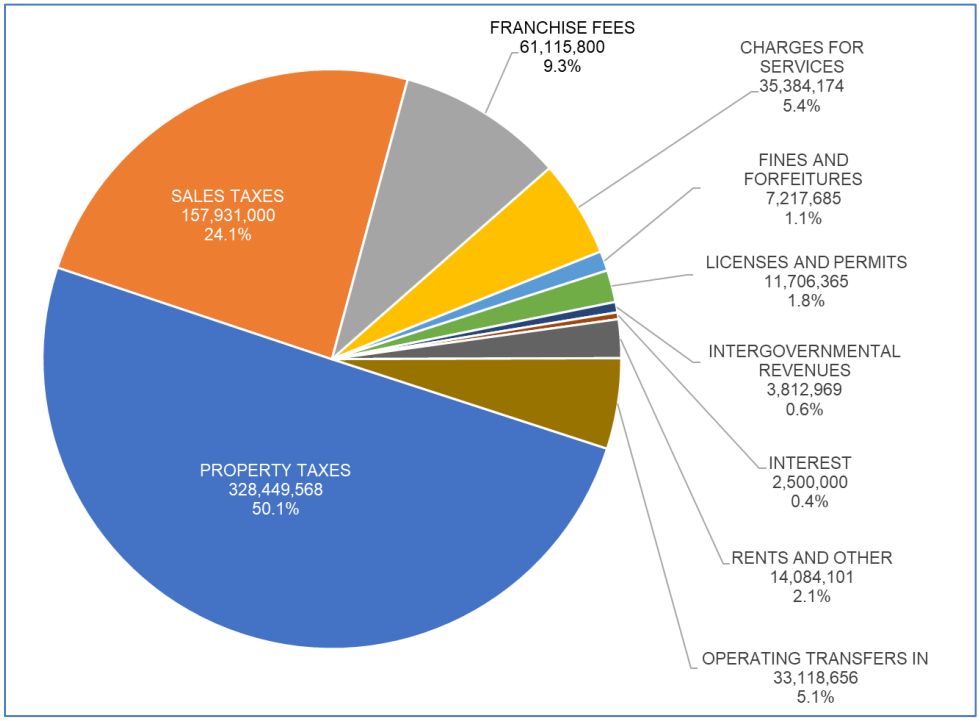

This philosophy recognizes that financial sustainability extends beyond balancing a single year's budget. It requires disciplined forecasting, recurring revenue solutions, prudent reserve management, strategic investments, and the willingness to make difficult decisions that position the organization for long-term success.

Approximately **74 %** of General Fund revenues are generated through property taxes and sales taxes, making these revenues critical to the City's financial stability. The remaining revenues provide important diversification while helping offset the cost of delivering municipal services. The FY 2027 General Fund invests resources in services residents use every day. Public Safety continues representing the City's largest investment, accounting for more than half of General Fund expenditures.

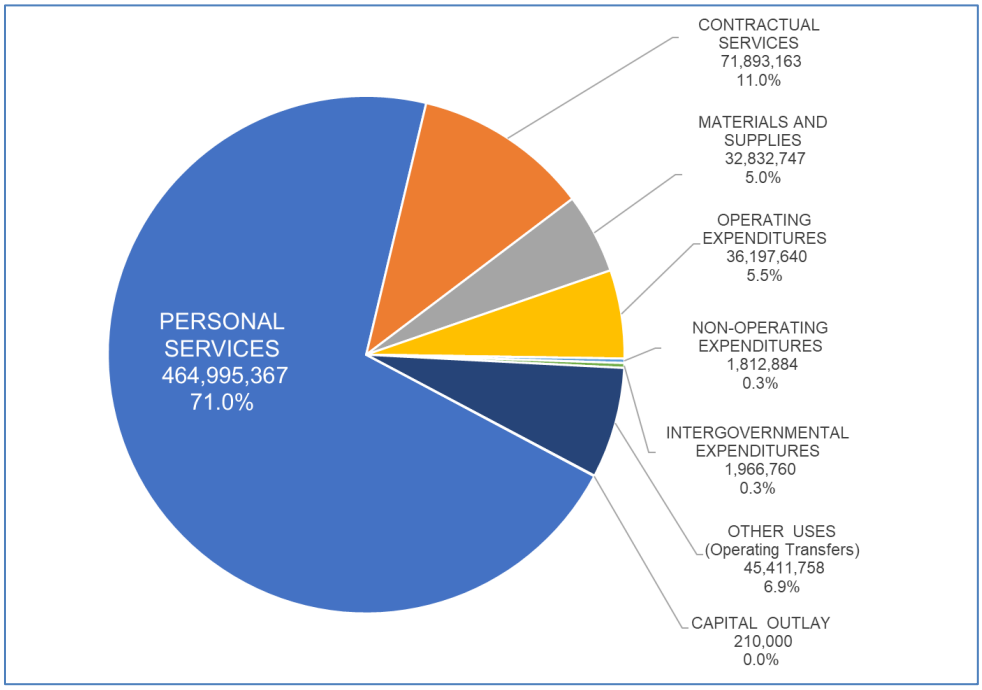

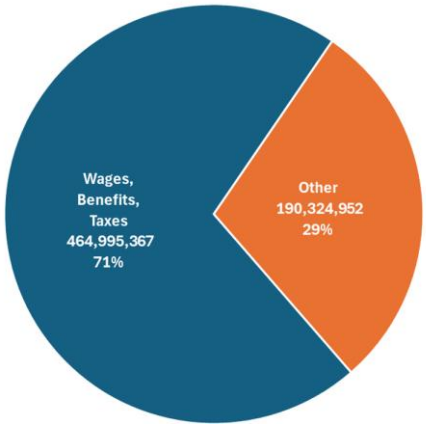

FY 2027 General Fund Revenue distribution:

FY 2027 General Fund Expenditure distribution:

Investment in Our Workforce

People remain the City's most valuable asset. Approximately **71%** of General Fund expenditures support employee salaries, benefits, payroll taxes, and retirement obligations. Among personnel costs: Police represents approximately **39%** of total workforce expenditures. Fire represents approximately **31%,** and remaining civilian employees account for the remaining **30%**.

Wages, Benefits, Taxes		
Police (Uniform and Non-Uniform)	$180.7M	39%
Fire (Uniform and Non-Uniform)	$146.0M	31%
Non-Uniform (Excluding Police and Fire)	$138.3M	30%

The FY 2027 Proposed Budget includes:

- Police and Fire compensation adjustments consistent with collective bargaining agreements;
- A **$0.50 per hour increase** to the City's minimum wage (from **$15.75 to $16.25**) or a minimum **2.5%** increase for eligible civilian employees;
- No increase in employee healthcare contributions for the **ninth consecutive year**; and additional voluntary insurance options available at no cost to the City.

These investments reinforce the City's commitment to attracting, developing, and retaining a highly qualified workforce.

Strategic Plan Alignment

Investing in El Paso's Future Through the Strategic Plan

The FY 2027 Proposed Budget is more than an annual financial plan—it is the City's primary strategy for implementing the recently adopted Strategic Plan. Every major investment, program, and operational decision included in the budget was evaluated to ensure alignment with the City's long-term vision and the priorities established by the Mayor and City Council.

The Strategic Plan serves as the foundation for organizational decision-making and establishes a common framework for delivering exceptional public services while improving the quality of life for residents. Through the full implementation of Program-Based Budgeting, the FY 2027 Proposed Budget strengthens the connection between financial resources, operational performance, and measurable community outcomes. As a result, the budget clearly demonstrates how taxpayer dollars support programs that directly advance the City's strategic priorities.

As previously already mentioned the FY 2027 budget supports **32 departments**, **283 programs**, and approximately **6,580 employees**, all working together to advance five strategic pillars: **Good Governance, Public Safety, Infrastructure, Economic Mobility and Quality of Life**.

Rather than viewing the budget as a collection of departmental appropriations, the City now views the budget as a strategic investment portfolio that supports measurable outcomes for residents, businesses, and visitors. This integrated framework ensures that financial decisions are guided by policy objectives rather than historical spending patterns alone.

This approach aligns closely with GFOA (Government Finance Officers Association) best practices by connecting planning, budgeting, and performance into one comprehensive management system.

Good Governance Pillar

Leadership that is Responsive and Reliable.

The Good Governance pillar establishes the foundation for all City operations. It focuses on transparency, accountability, operational excellence, responsible stewardship, and meaningful community engagement. The FY 2027 Proposed Budget includes several transformational initiatives supporting this pillar:

- **Program-Based Budgeting**. Rather than asking, "How much did a department spend?" residents can now better understand "What services were delivered?" and "What community outcomes were achieved?"
- **Two-Year Financial Outlook.** Early identification of structural budget challenges. Better forecasting. More informed policy decisions.
- **Enhanced Budget Transparency**. Earlier City Council budget workshops. Revised Council Budget Adjustment process. Expanded community meetings. Budget Simulation Tool. Improved financial reporting. Performance-based budget presentation and Budget Book.

Public Safety Pillar

Public Safety remains the City's highest funding priority and represents the single largest General Fund investment. The FY 2027 Proposed Budget continues investing in police, fire, emergency response, and neighborhood safety while supporting recruitment, retention, and operational readiness. It includes three Police academies graduating 90 new officers, continued implementation of COPS grant, Fire department graduating two academies that are expected to yield 45 firefighters, SAFER grant staffing, increased funding for Hazardous Materials Unit, Emergence medical response and public safety health services. FY 2027 Proposed budget includes $3.2M increase for Public Safety radio system, and as well maintains current funding levels for Vision Zero and Neighborhood Traffic Management program.

Infrastructure Pillar

Reliable infrastructure remains essential to maintaining quality public services and supporting economic growth. The FY 2027 Proposed Budget continues prioritizing investments that preserve existing assets while improving community mobility and connectivity. The budget maintains current funding in annual Pay-Go supporting: streets, sidewalks, facilities and fleet. Maintaining recurring capital investment reduces deferred maintenance while protecting taxpayer investments. FY 2027 Infrastructure pillar also supports: Eastside Sports Complex, park maintenance, recreation facilities, open space improvements and equipment replacement. We

allocated **$920,000** to support new vehicles and heavy equipment for Eastside Sports Complex maintenance through Public Improvement District funding.

In addition, FY 2027 heavily invests in technology infrastructure through continuous investments in cybersecurity, information technology infrastructure, public safety communications, digital government and operational technology.

Economic Mobility Pillar

The FY 2027 Proposed Budget recognizes that economic opportunity begins with investing in people. The budget focuses on employee recruitment and workforce retention through: $0.50 minimum wage increase with minimum 2.5% civilian wage adjustment, public safety compensation investments and healthcare stability. The City continues maintaining employee healthcare contributions without increase for the ninth consecutive year while expanding voluntary benefit options. Moreover, FY2027 budget continues supporting: business development, international trade, tourism, aviation, international bridges and workforce development.

Quality of Life Pillar

Quality of Life investments enhance the daily experiences of residents and strengthen neighborhood vitality. The FY 2027 Proposed Budget continues supporting programs that improve community well-being through investments in: Parks and Recreation, Libraries, Museums and Cultural Affairs and Zoo. FY 2027 increases Library fund for books and publications by $100,000 and adds $960,000 for new vehicles and heavy equipment for Eastside Sports Complex.

Advancing the Strategic Vision

The FY 2027 Proposed Budget demonstrates that financial planning and strategic planning are inseparable. Every major investment—from public safety and infrastructure to employee development, technology, and neighborhood services—was evaluated based on its contribution to the City's long-term vision. By aligning financial resources with strategic priorities, implementing Program-Based Budgeting, expanding public engagement, and strengthening long-term financial planning, the City is building an organization that is more transparent, accountable, innovative, and responsive.

The FY 2027 Proposed Budget therefore serves not only as a financial plan but also as the City's implementation strategy for achieving the goals of the Strategic Plan.

Looking Ahead

The financial challenges facing municipalities are expected to continue over the coming years. Inflation, evolving State legislation, workforce competition, aging infrastructure, and uncertainty surrounding federal funding will require continued vigilance and thoughtful decision-making.

The FY 2027 Proposed Budget demonstrates that fiscal sustainability is not achieved through a single initiative but through a series of disciplined decisions that collectively strengthen the organization over time.

By preserving structural balance, investing strategically in employees and infrastructure, managing debt responsibly, improving operational efficiency, and maintaining strong financial reserves, the City of El Paso is well positioned to continue delivering exceptional public services while protecting the financial resources entrusted to it by residents.

This commitment to financial stewardship ensures that today's investments strengthen—not compromise—the City's ability to serve future generations.

Conclusion

The FY 2027 Proposed Budget is more than a financial document—it is a roadmap for the future of El Paso.

It reflects a disciplined, forward-looking financial plan that balances immediate operational needs with long-term strategic priorities. It is the result of months of collaboration among City Council, City leadership, department directors, employees, and community stakeholders, all working toward a shared vision of a stronger, safer, and more prosperous El Paso.

This budget demonstrates that responsible financial stewardship is not measured solely by balancing revenues and expenditures. It is measured by the City's ability to make strategic investments that improve residents' quality of life while preserving financial flexibility for future generations.

P2504 Education and Outreach

Objective

The objective of the Humane Education & Outreach Program is to increase knowledge, empathy, and responsible pet ownership behaviors while improving access to services that keep pets healthy, safe, and in their homes. We aim to reduce cruelty, neglect, and preventable shelter intake; support more confident, prepared pet owners; and build stronger, more compassionate neighborhoods. Ultimately, this program helps break harmful cycles, supports every aspect of shelter work, and moves our community toward a future where animals are respected, protected, and cared for throughout El Paso. We aim to increase the reach of community members in each district, directly in their neighborhood, to provide more services to the community, mitigate and resolve common complaints and concerns, assist pet owners with keeping their pets, and build relationships with community members and leaders.

P2506 Volunteer

Objective

The objective of the Volunteer program is to recruit, train, and retain a committed, well-supported, and diverse team of volunteers who expand the organization's capacity to deliver high-quality services and care. Volunteers expand the department's operational efforts with minimal additional expense. They are invaluable and the backbone of any successful shelter. All programs and services provided by the department have volunteer support in one way or another. Last fiscal year, volunteers contributed $1.8 million in value to the organization. Through coordinated activities in volunteer recruitment, onboarding, management, engagement, training, placement, specialty programs and overall program design, we aim to ensure volunteers are well-prepared, confident and safe in their roles, increase the number of active, reliable volunteers contributing meaningful hours and service across the department, improve program capacity and quality, and build a sustainable, positive volunteer experience that leads to higher retention, a stronger community, and a pipeline of advocates, donors and future staff.

Objective

The Community Pet Support Services program aims to provide accessible, comprehensive support to pet owners and their pets, addressing barriers to care, preventing unnecessary surrenders, and promoting pet retention and welfare. The program also supports unhoused pet owners, facilitates rehoming when necessary, and provides resources for coping with pet loss. While providing pet owners with resources does have a cost, it's often much more costly to bring a pet into the shelter.
